

NH Broadband Mapping & Planning Program: Maximum Advertised Download Speed Greater Than or Equal to 6 mbps

Map Key

 Greater than or equal to 6 mbps

Other Features

 Interstate

 County boundary

The map displays broadband access information submitted to the NH Broadband Mapping & Planning Program (NHBMPP) as of September 30, 2010.

Service providers submitted data in a range of geographies, including addresses, road segments, census blocks, census tracts, etc. For mapping purposes, all data are aggregated and displayed at the census block level. A census block is mapped as "served" if service is delivered to any part of the block.

Broadband is defined as access that is at least **768 kbps downstream** and **200 kbps upstream**.
